

## PIKE LAKE DENTAL PATIENT INSURANCE RESPONSIBILITY NOTICE

Pike Lake Dental provides many different types of dental services including exams, emergency treatment, fillings, crowns, extractions, root canals, implants, periodontal treatment and all forms of general dentistry. Although most insurance companies cover a percentage of most services, there are some insurance companies that do not cover certain types of procedures.

Our staff makes every effort to assist you in understanding your dental insurance benefits. However, it is impossible for us to know all the many different insurance benefits from one insurance group to the next. Therefore, we are providing this Notice to inform you of the following responsibilities as they relate to insurance benefit coverage and payment responsibilities by the patient and Pike Lake Dental.

### PIKE LAKE DENTAL'S RESPONSIBILITIES

Pike Lake Dental is not responsible for knowing what services are covered by the patient's insurance plan and is not responsible for informing the patient whether a particular service is covered.

Pike Lake Dental will assist the patient in obtaining payment from his/her insurance company by submitting the necessary insurance claims.

### PATIENT'S RESPONSIBILITIES

It is the patient's responsibility to know and understand his/her own dental insurance benefit coverage and limits. The patient is ultimately responsible for payment for all services rendered by Pike Lake Dental at the time of treatment, and the patient must pay for any services not covered by the patient's insurance company.

By signing below, I hereby acknowledge and understand my responsibilities as a patient of Pike Lake Dental and accept that Pike Lake Dental is not responsible for knowing my dental insurance benefits for services provided.
